PREFACE

The Industrial Arts Index, now in its thirty-fourth year, cumulates in this volume the twelve monthly issues published from December 1944 thru November 1945, making the thirty-third annual cumulation.

There have been no changes in the list of periodicals indexed except the substitution of *Life Insurance Courant* and *Rough Notes* for the two editions of *Insurance Field.* This change was made at the suggestion of the Insurance Group of the Special Libraries Association. Two new periodicals are to be indexed in 1946: *The Journal of Documentation,* published quarterly by the Association of Special Libraries and Information Bureaux, London, and *Domestic Commerce,* published by the United States Department of Commerce. Two volumes of United States National Advisory Committee for Aeronautics Reports, 1940 and 1941, not available during the war, have been received and will be indexed in the current 1946 volume of the Index.
